## How to access

- Exactly as in the instructions for accessing the Quick Start Guide on Solomon:
- First, open your browser and go to <http://solomon.ugle.org.uk> or [click HERE](#).
- Click on 
- You don't need to log into Solomon to use this – although you can log in or register if you want to. It's entirely up to you.
- When you arrive, you'll see a greeting – “Hello Brother...” – along with a brief explanation of how to use AskHiramGPT.
- Scroll down a little further and you'll find a box inviting you to “Ask your question here.”

## Asking Questions

- It's a very powerful tool, so by all means, experiment—but start gently. Try asking simple, relevant questions and see what kind of answers you get.
- That's really just the beginning. The response can turn into an ongoing conversation with the Digital Assistant. It might ask if you'd like more detail, whether you want the answer printed, or if you have another question to add. Before long, it feels less like a one-off query and more like a natural back-and-forth exchange.
- At the end of each answer there is a useful copy facility, and your feedback is important, so do use the 'thumbs up or down' to register your opinion.

## Suggested Questions *(just to get you started)*

- **Question 1** - Type “*How to perform a double Initiation*” (Note the answer can be quite long, but use the internal scroll bar within the answer box)
- **Question 2** – now you are getting used to it, let's give it a slightly more difficult question which could be really important for any Lodge or Chapter.
